Santa Clara County has updated their Shelter-in-Place Order to allow certain additional businesses and activities to resume, subject to restrictions to reduce transmission risk. At the direct request of UCON, they have also made important, positive updates to construction industry protocols, outlined below. This updated Order will go into effect at 12:01 am on Friday, June 5, 2020.

Construction Project Safety Protocols:
The Construction Project Safety Protocol in Appendix B-1 and B-2 have changed as follows:

- **The threshold for an essential infrastructure project subject to the Large Construction Project Safety Protocol has changed from five workers to 20 workers.** All essential infrastructure projects with less than 20 workers present at the jobsite at any one time are now subject to the Small Construction Project Safety Protocol in Appendix B-1.
- **Appendix B-1 now specifies that specified steps must be taken if a worker at a construction site tests positive for COVID-19, and both appendices now state that COVID-19 cases associated with construction must be immediately reported to the County Public Health Department by both telephone and by email.**

United Contractors will continue to advocate for continued, positive changes to the remaining Bay Area County SIP orders.
